

ZIONISTS PROPOSE YEARLY MEETING

Committee Would Gather Annually and Congress Every Three Years.

By the Associated Press.
CARLSBAD, Czechoslovakia, September 8.—The committee on organization of the World Zionist Congress, in session here, plans to put before the congress for adoption a proposal that the congress should meet every three years. It will also propose that the present congress choose from the delegates 150, who would meet yearly and elect the greater and smaller executive committees, officially known as the "actions committee."

A number of delegates from eastern Europe have decided to call upon the congress to take special steps to protect the thousands of Jewish orphans left homeless and helpless as a result of pogroms in the Ukraine during the past three years. It is proposed to appoint a special committee to facilitate the settling of these orphans in Palestine and to issue an appeal in the name of the congress to Jews all over the world for aid for the children.

Thursday's sessions were devoted chiefly to debates on the measure of support to be given co-operative movements in Palestine, as against private enterprises. Many of the delegates spoke in favor of private enterprises.

LIFTS LID ON ORIENTALS.

Judge Permits Employment of Japanese and Chinese.
VANCOUVER, B. C., September 8.—An injunction restraining the government of British Columbia from prohibiting the employment of Japanese and Chinese by holders of timber licenses in this province was granted today by Supreme Court Justice Murphy. It will remain in force until the supreme court of Canada passes upon the constitutionality of the oriental validation act. Attorney General J. W. De Farris stated that a hearing of the case would be sought in the court of Canada, probably in October.

In view of representations from the Japanese consul general at Ottawa, seeking disallowance of the act, Minister of Justice Doherty decided to refer the entire subject to the supreme court. Ultimately it was said the case would be carried to the judicial committee of the privy council.

Prohibition Results In Death of Bodies For Use in Dissection

TORONTO, September 8.—Prohibition was blamed for the scarcity of bodies furnished to medical colleges for dissection purposes, by Dr. J. B. McCarrick, professor of anatomy at the University of Toronto, in an address before the Canadian Embalmers' Association.

Dr. McCarrick said, men belonging to the class that formerly died destitute through indifference in liquor were now leaving money enough to give them a regular burial, and colleges rarely obtained any bodies from that source. He appealed to embalmers to assist as much as possible in furnishing bodies to be used in the scientific studies and researches of the medical schools.

OPPOSE 1 PER CENT LEVY ON BANK STOCKS

Twenty-Four New York Banks Start Suits Against Discriminatory Tax Totalling \$5,500,000.

By the Associated Press.
NEW YORK, September 9.—The constitutionality of the 1 per cent tax on outstanding capital stock of national and state banks is assailed in suits filed by twenty-four financial institutions against Henry M. Goldfogle, president of the board of taxes and assessments, and the board's six commissioners. All other state and national banks in the city, the capital outstanding stock of which totals about \$550,000,000, contemplated similar action, it was said.

In asking that the assessment be set aside, the complaint of the Hanover National Bank, similar to the others, declared that payment of the assessment would be discriminatory, as there is no capital tax against other corporations, and that it calls for payments greatly in excess of tax levied against income.

If the banks should win their suits the city of New York, it was said, would lose about \$5,500,000 this year that would ordinarily accrue from such sources.

SOLDIER'S LIFE SAVED.

President Harding has commuted to imprisonment at hard labor for life the sentence of death by hanging imposed by court-martial in the case of Private Leftwich Wylie, 34th Cavalry, convicted of killing another soldier in the Philippines.

MAY RENT MUNN HOUSE FOR PARLEY DELEGATES

Chinese Legation Is Negotiating for Dwelling at 16th Street and Massachusetts Avenue.

The Chinese legation, it was reported today, is negotiating for the rental of the Munn house, at 16th street and Massachusetts avenue, facing on Scott Circle, for the use of its delegates to the coming limitation of armaments conference. At the legation it was said the negotiations had not yet been closed for a home for the delegates. A party numbering from 100 to 200 is expected to attend the conference from China, and those members who cannot be housed in the building taken for the principal delegates will be placed in a hotel near the embassy, possibly some of them in the Cairo.

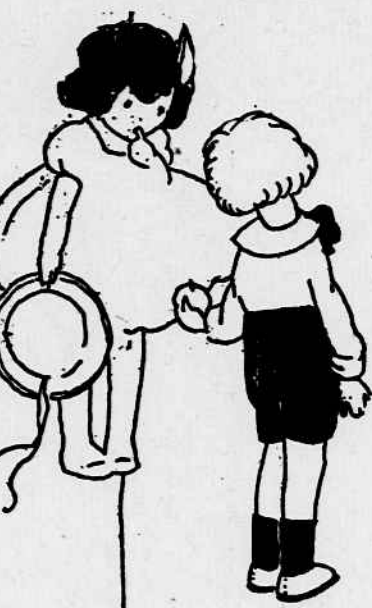

Offices have been assigned in the Navy building in Potomac Park for the use of the Chinese delegation. The Japanese embassy probably will take care of the Japanese delegation.

Getting the Boy Ready for School

IT'S about the only time you can get the guardians of the family name throughout the coming generation to be seriously interested in clothes.

Now he wants a real suit, snow-white collars, shirts, ties and a dozen other things. His shoes must be just so. He is really interested in having stockings smooth and fresh-looking. And a hat—he's as fussy as his Dad, when it comes to getting a hat for school wear.

But the Boys' Department at Lansburgh & Brother knows what he likes—and what Mother thinks is best for him to have.
